Key Insights

- Electronics generated ₹4.96 Cr (36.5%) of total revenue, making it the top-performing category.
- Mobile (₹2.51 Cr) and Laptop (₹2.46 Cr) were the highest revenue-generating products.
- March recorded the highest monthly revenue (₹1.29 Cr), while September was the lowest (₹0.90 Cr).
- Bengaluru had the highest average order value at ₹1.55 Lakh per order.
- Customers aged 18–24 recorded the highest average order value of ₹1.44 Lakh.
- High-value orders represented 36.5% of transactions but generated 69.3% of total revenue.
- East region generated the highest revenue (₹5.21 Cr), while South had the highest average order value (₹1.46 Lakh).
- Male (₹7.05 Cr) and Female (₹6.55 Cr) customers contributed almost equally to revenue.

Recommendations

- Focus marketing on Electronics, especially Mobile and Laptop, which generated ₹4.97 Cr combined revenue.
- Launch targeted promotions in September to improve sales during the lowest-performing month (₹0.90 Cr).
- Expand premium product offerings in Bengaluru, where average order value is highest (₹1.55 Lakh).
- Target the 18–24 age segment with premium Fashion campaigns, as they show the highest spending behavior.
- Implement loyalty and retention programs for high-value customers, who contribute 69.3% of total revenue.
- Increase premium product penetration in the East region to improve average order value while maintaining high sales volume.
- Allocate marketing budget based on age groups and product categories rather than gender, as revenue contribution is nearly equal across genders.
